

1 HYDRAULIC CYLINDER
 Treatment: CLIN™
 Info: High Corrosion resistance , good friction properties, Seizure & wear resistance
 Environmental alternative to Hard chromium / High corrosion resistance & improved friction properties

2 ARTICULATION PIN
 Treatment: CLIN™
 Info: High Corrosion resistance , good friction properties, seizure & wear resistance

3 POWER CELL COMPONENT: PISTON PIN
 Treatment : CERTESS™ CARBON
 Info: Diamond-like carbon (DLC) coating to prevent seizure, wear, extend component lifetime and increase overall engine reliability

4 ENGINE VALVE
 Treatment: CLIN™
 Info: Improved durability & superior corrosion resistance

5 VALVETRAIN COMPONENTS : ROCKERS AND ROCKER ROLLER PIN
 Treatment : CERTESS™ CARBON
 Info: Diamond-like carbon (DLC) coating to make your valvetrain more robust, extend its lifetime and decrease engine maintenance cost

6 TRACTOR FRONT AXLE: PEL-BH or H-Liner Bushings
 Info: bushings with high seizure and abrasive wear resistance for a longer lifetime with or without lubrication.

7 ROCKER ARM & SHAFT :
 Treatment : CLIN™
 Info: Improved durability and excellent adhesive wear resistance

8 TRACTOR FRONT AXLE: PEL-BH or H-Liner Bushings
 Info: bushings with high seizure and abrasive wear resistance for a longer lifetime with or without lubrication.
